## ABOUT ME

I am a dedicated and diligent student studied cybersecurity. Computers, the technology industry, and how they work is of particular interest to me. To build on my existing knowledge, I'm looking for a job in the IT industry. My love for learning and accomplishments motivates me to apply my growth mindset to fit into any work setting.

## EDUCATION AND QUALIFICATIONS

### CREW MEMBER, McDONALD'S (SWINDON)

AUGUST – SEPTEMBER 2021

- Using my Critical thinking to work efficiently in a highly pressurized environment.
- Working as an influential team member, ensuring clear communication.
- Ensuring the kitchen is prepared and making meals for customers has improved my time management skills.

## OTHER EXPERIENCES

### THE DUKE OF EDINBURGH'S AWARD - BRONZE

2017

- Learnt many new skills for example Quick Thinking when our group got lost. So, making a new route/ plan was important.
- Navigation skills that would be useful throughout my life.

### NATIONAL CITIZEN SERVICE (NCS)

JUNE 2019 – JULY 2019

I participated in a charitable organization called NCS, where I learned many new skills and experiences, for example, our team rebuilt a garden for a charity called Swindon Advocacy Movement (SAMs) and we funded the money ourselves via, cake sales and bag-packing.

### TENNIS COACH

MARCH 2016 – JULY 2019

While playing tennis, my coaches saw that I had good ability and wanted me to use that to help teach younger players how to improve. They asked me to help them coach four days a week, which helped me develop leadership skills and understand how to transfer my knowledge to others in a detailed but simplistic way, so as not to be too complex.

## SKILLS

- Entry-level understanding of multiple coding languages, including Java, JavaScript, SQL, Python

- Complex Website development using JavaScript, HTML, and CSS website development using my own code and hosting them.
- Problem-solving using algorithms.
- I have built many computers and solved issues my family and I have had with them.
- Basic knowledge of managing databases and using queries.
- good knowledge of using windows, Unix OS
